EXPERIENCE

Machine Learning Researcher

📅 Jun 2024
– Present

🌐 Toloka AI, Germany

- ACL 2025 accepted, multimodal university-level math benchmark;
- Developed a substantial part of Agentic Platform for Human-AI collaboration; evaluation, improving the quality on 30%+;

(Agents) (Evaluation) (PyTorch) (HuggingFace) (GenAI) (Human-AI Quality)

NLP Data Scientist

📅 Jan 2022
– Sep 2022

🌐 EPAM Systems, Serbia

- Trained an unsupervised model for support ticket trends over time;
- Implemented a processing team predictive model, improving ticket processing efficiency by ~10s seconds per ticket for 100k tick./year.

(Python) (FastText) (SkLearn) (PyTorch) (HuggingFace) (PyTest) (Docker) (Jenkins)

Python Course Head, Lecturer

📅 Jan 2021
– Present

🌐 Yandex School of Data Analysis, Russia

- Led an Advanced Python course for 300-500 students yearly;
- Managed a team of 9 people, planning, review, tech supervision;
- Boosted assignment-checking system (e.g 6x acceleration).

(Management) (Python) (Teaching) (Docker) (PyTest) (Gitlab-CI) (Github-Actions)

Research Engineer, Project Manager

📅 Apr 2020
– Jan 2022

🌐 Gorky AI (startup), Russia

- Managed 2-4 developers per project, liaising with clients;
- Introduced Align flow, CI/CD, code reviews, improved teamwork;
- Developed a high-loaded 'roads quality' model on sensors data;
- Designed and developed a solution for scanned document analysis, trained a high mAP (~0.94) CV model for tables, imgs, and stamps.

(Python) (PyTorch) (HuggingFace) (SkLearn) (PyTest) (ONNX) (Docker) (Gitlab-CI)

Internships: 🌐 JetBrains Research (2023), 🌐 University of Groningen (2022), 🌐 LATNA at Higher School of Economics (2019-2020)
Internships: 🌐 JetBrains Research (2023), 🌐 University of Groningen, Research Intern (2022), 🌐 LATNA at Higher School of Economics, Research Intern (2019-2020)

EDUCATION

Master of Science (NLP)

📅 Sep 2022
– Aug 2024

🌐 Groningen & Saarland Unis., Netherlands & Germany

Erasmus Mundus "Language & Communication Technologies";
GPA: 8.7/10 +Assistant at Language Technology Project;
Thesis on Mechanistic Interpretability for LLM pruning.

Post Graduate 2-year Program (Data Science)

📅 Sep 2019
– Jul 2021

🌐 Yandex School of Data Analysis, Russia

Top Russian Data Science program with 3% acceptance rate;
GPA: 8.9/10; +Assistant at Python Course.

Bachelor of Science (Applied Math and CS)

📅 Sep 2017
– Jul 2021

🌐 Higher School of Economics, Russia

SUMMARY

Passionate Researcher with 6+ years of experience, doing XAI, Pruning and Agents;

- 6+ years of programming, 5+ of NLP Research experience in Startups, EPAM, JetBrains and Toloka AI;
- MsA with Honors at Erasmus Mundus LCT; BaSc with Honors in HSE, Russia;
- Completed 10+ ML research projects.

SKILLS

• Data Science

(NLP) (Agents) (Evals) (XAI) (Pruning)
(Compression) (Speech) (RL)

• Frameworks

(HuggingFace) (PyTorch) (SkLearn)
(Tensorflow) (NLPCore) (TorchText)

• Programming Languages

(Python) (Rust) (C++) (CUDA) (GoLang)

• Development Tools

(git) (Docker) (Neptune.ai) (GitLab-CI)
(GitHub-Actions) (Ansible) (ONNX)

• Languages

(Russian) (English) (German) (Serbian)

PUBLICATIONS

- 🌐 LCT-1 at SemEval-2023 Task 10: Pre-training and Multi-task Learning for Sexism Detection and Classification [accepted, ACL-2023 workshop];
- 🌐 U-MATH: A University-Level Benchmark for Evaluating Mathematical Skills in LLMs [accepted, ACL-2025 workshop];

ACHIEVEMENTS

- Erasmus Mundus Scholarship 2022-2024; Honours Master's degree in NLP;
- Honours Bachelor's degree in CS;
- Largely improved Python course at YSDA, Top-1 by students' rating;
- Finished YSDA - Master's-level Data Science program, 3% acceptance rate.

PERSONAL

Cheerful and sociable person, keen on slackline and juggling, love music making.

(Music Production) (Juggling) (Slackline)

GPA: 9.1/10; +Assistant at Algorithms and Data Structures.
Thesis on Abstractive Text Summarization Knowledge Graphs.
