EXPERIENCE

Machine Learning Researcher

Toloka AI, Germany

- **J**un 2024 - Present
- ACL 2025 accepted, multimodal university-level math benchmark;
- Developed a substantial part of Agentic Platform for Human-Al collaboration; evaluation, improving the quality on 30%+;

(Agents) (Evaluation) (PyTorch) (HuggingFace) (GenAl) (Human-Al Quality)

NLP Data Scientist

©EPAM Systems, Serbia

- **J**an 2022 - Sep 2022
- Trained an unsupervised model for support ticket trends over time;
- Implemented a processing team predictive model, improving ticket processing efficiency by ~10s seconds per ticket for 100k tick./year. (Python) (FastText) (SkLearn) (PyTorch) (HuggingFace) (PyTest) (Docker) (Jenkins)

Python Course Head, Lecturer

Yandex School of Data Analysis, Russia

- **Jan 2021**
 - Present
- Led an Advanced Python course for 300-500 students yearly;
- Managed a team of 9 people, planning, review, tech supervision;
- Boosted assignment-checking system (e.g 6x acceleration). (Management) (Python) (Teaching) (Docker) (PyTest) (Gitlab-CI) (Github-Actions)

Research Engineer, Project Manager **Gorky Al (startup)**, Russia

Apr 2020 - Jan 2022

- Managed 2-4 developers per project, liaising with clients;
- Introduced Align flow, CI/CD, code reviews, improved teamwork;
- Developed a high-loaded 'roads quality' model on sensors data;
- Designed and developed a solution for scanned document analysis, trained a high mAP (~0.94) CV model for tables, imgs, and stamps. (Python) (PyTorch) (HuggingFace) (SkLearn) (PyTest) (ONNX) (Docker) (Gitlab-Cl)

Internships: • JetBrains Research (2023), • GroNLP at University of Groningen (2022), & LATNA at Higher School of Economics (2019-2020)

EDUCATION

Master of Science (NLP)

Groningen & Saarland Unis., Netherlands & Germany

- Aug 2024

Erasmus Mundus "Language & Communication Technologies"; GPA: 8.7/10 +Assistant at Language Technology Project; Thesis on Mechanistic Interpretability for LLM pruning.

Post Graduate 2-year Program (Data Science) **Yandex School of Data Analysis**, Russia

□ Sep 2019 - Jul 2021

Top Russian Data Science program with 3% acceptance rate; GPA: 8.9/10; +Assistant at Python Course.

Bachelor of Science (Applied Math and CS) **OHigher School of Economics**, Russia

Sep 2017 - Jul 2021

GPA: 9.1/10; +Assistant at Algorithms and Data Structures. Thesis on Abstractive Text Summarization Knowledge Graphs.

SUMMARY

Passionate Researcher with 6+ years of experience, doing XAI, Pruning and Agents;

- 6+ years of programming, 5+ of NLP Research experience in Startups, EPAM, JetBrains and Toloka AI:
- MsA with Honors at Erasmus Mundus LCT; BaSc with Honors in HSE, Russia;
- Completed 10+ ML research projects.

SKILLS

- Data Science
 - NLP Agents Evals (XAI) (Pruning) Compression Speech (RL)
- Frameworks
 - HuggingFace PyTorch SkLearn Tensorflow NLPCore (TorchText)
- Programming Languages Python Rust C++ CUDA GoLang
- Development Tools git Docker Neptune.ai GitLab-Cl GitHub-Actions Ansible ONNX
- Languages Russian English German Serbian

PUBLICATIONS

- **SLCT-1** at SemEval-2023 Task 10: Pre-training and Multi-task Learning for Sexism Detection and Classification [accepted, ACL-2023 workshop];
- **&**U-MATH: A University-Level Benchmark for Evaluating Mathematical Skills in LLMs [accepted, ACL-2025 workshop];

ACHIEVEMENTS

- Erasmus Mundus Scholarship 2022-2024; Honours Master's degree in NLP;
- Honours Bachelor's degree in CS;
- Largely improved Python course at YSDA, Top-1 by students' rating;
- Finished YSDA Master's-level Data Science program, 3% acceptance rate.

PERSONAL

Cheerful and sociable person, keen on slackline and juggling, love music making. (Music Production) (Juggling) (Slackline)
