KONSTANTIN CHERNYSHEV

AI Researcher – LLM Evals, Post-Training, Pruning & Agents;

@ kdchernyshev+job@gmail.com | Berlin, Germany | in kdchernyshev | k4black

LATEST EXPERIENCE

NLP Researcher, R&D
Jun 2024 – Present

Toloka AI, Germany

- Led company-wide **QA agent**, improved **+30% quality** at **1/3 cost**;
- Built substantial part of Tendem **hybrid human+AI** platform;
- **First-author** of U-MATH (ACL 2025), university-level multimodal **math benchmark** & **LLM-as-judge** meta-eval;
- Trained multi-GPU **SFT** /w **model merging** for math; **agentic synth-data** for complex cases;

Evals | Agents | SFT/RL | Synth Data | Multi-GPU | HF | vLLM | LiteLLM

NLP Data Scientist
Jan 2022 – Sep 2022

EPAM Systems, Serbia

- Trained an unsupervised model for support ticket trends over time;
- Built predictive routing model saving ~10s/ticket at 100k tick./y.;

Python | FastText | SkLearn | PyTorch | HF | PyTest | Docker | Jenkins

Python Course Head, Lecturer
Jan 2021 – Jan 2025

Yandex School of Data Analysis, Russia

- Led an 'Advanced Python' (~500 students), managed team of 9;
- Boosted assignment-checking system (e.g 6x acceleration).

Management | Python | Teaching | Docker | PyTest | CI/CD

Research Engineer, Project Tech Lead
Apr 2020 – Jan 2022

Gorky AI (startup), Russia

- Led 4-developer team; introduced CI/CD and code review;
- Built near-SOTA Russian **Voice Conversion**, sensor-analytics and **CV document-analysis** (0.94 mAP) models;

Python | PyTorch | HF | SkLearn | ONNX | Docker | CI/CD | Team Lead

---

Internships: JetBrains Research, code-LLM interpretability (2023), GroNLP at University of Groningen (2022), LATNA at Higher School of Economics (2019-2020)

EDUCATION

Master of Science (NLP)
Groningen & Saarland Unis., Netherlands & Germany

Erasmus Mundus "Language & Communication Technologies";
GPA: 8.7/10 +Assistant at Language Technology Project;
Thesis on Mechanistic **Interpretability for LLM pruning**.

Post Graduate 2-year Program (Data Science)
Yandex School of Data Analysis, Russia

Top Russian Data Science program with **3% acceptance rate**;
GPA: 8.9/10; +Assistant at Python Course.

Bachelor of Science (Applied Math and CS)
Higher School of Economics, Russia

GPA: 9.1/10; +Assistant at Algorithms and Data Structures.

SUMMARY

AI/NLP Researcher with 6+ years across LLM Evals, Post-training and Agents;

- LLM **evals design**, **SFT/RL post-training**, **synth data** at Toloka AI, Startups, EPAM;
- Honors MSc @ Erasmus Mundus LCT - thesis: **Interpretability for LLM pruning**;
- First-author of papers & tech reports.

SKILLS

- LLM & Training
  Evaluation | Agents | Synth Data | Data Curation | SFT | RL | Pre-training
- ML & NLP
  NLP | XAI / Interpretability | Pruning | Quantization
- Frameworks & Tools
  PyTorch | HF | Docker | CI/CD | Accelerate | vLLM | MLflow | SkLearn
- Programming Languages
  Python | Rust | C++ | CUDA
- Languages
  Russian | English | Serbian | German

PUBLICATIONS

- *U-MATH: A University-Level Benchmark for Evaluating Mathematical Skills in LLMs* [GEM @ ACL-2025; 41+ cit.];
- *Tendem: A Hybrid AI+Human Platform* [Tech Report];
- *Hands-On Tutorial: Labeling with LLM and Human-in-the-Loop* [COLING-2025 tutorial];
- *LCT-1 at SemEval-2023 Task 10: Pre-training and Multi-task Learning for Sexism Detection and Classification* [SemEval @ ACL-2023];

ACHIEVEMENTS

- Erasmus Mundus Scholarship; Honours MSc (NLP) & BSc (Math+CS);
- 2x **first-author** ACL papers (2023, 2025);
- Led Advanced Python - top-1 rated course at YSDA (~500 students).
