

KONSTANTIN CHERNYSHEV

NLP Research Engineer — LLMs, Evaluation & Multi-Agentic Systems

@kdchernyshev+job@gmail.com

📍 Berlin, Germany

in kdchernyshev

🔗 k4black

EXPERIENCE

NLP Researcher, R&D

📅 Jun 2024
– Present

🔗 [Toloka AI, Germany](#)

- ACL 2025 accepted, multimodal university-level Math Benchmark;
- Developed a substantial part of Agentic+Human collab system;
- Built Evaluation and led Agentic QA, improved quality on 30%+;

(Evaluation) (Agents) (Synth Data) (Bench design) (HF) (Human-AI QA)

NLP Data Scientist

📅 Jan 2022
– Sep 2022

🔗 [EPAM Systems, Serbia](#)

- Trained an unsupervised model for support ticket trends over time;
- Implemented a processing team predictive model, improving ticket processing efficiency by ~10s seconds per ticket for 100k tick./year.

(Python) (FastText) (SkLearn) (PyTorch) (HF) (PyTest) (Docker) (Jenkins)

Python Course Head, Lecturer

📅 Jan 2021
– Jan 2025

🔗 [Yandex School of Data Analysis, Russia](#)

- Led an 'Advanced Python' (~500 students), managed team of 9;
- Boosted assignment-checking system (e.g 6x acceleration).

(Management) (Python) (Teaching) (Docker) (PyTest) (CI/CD)

Research Engineer, Project Tech Lead

📅 Apr 2020
– Jan 2022

🔗 [Gorky AI \(startup\), Russia](#)

- Led 2-4 developer teams; introduced CI/CD and code review;
- Built ML models for phone sensors data analysis, near-sota Voice Conversion for Russian and CV document analysis (0.94 mAP).

(Python) (PyTorch) (HF) (SkLearn) (ONNX) (Docker) (CI/CD) (Team Lead)

Internships: 🔗 [JetBrains Research](#) (2023), 🔗 [GroNLP](#) at University of Groningen (2022), 🔗 [LATNA](#) at Higher School of Economics (2019-2020)

EDUCATION

Master of Science (NLP)

🔗 [Groningen & Saarland Unis., Netherlands & Germany](#)

Erasmus Mundus "Language & Communication Technologies";
GPA: 8.7/10 +Assistant at Language Technology Project;
Thesis on Mechanistic Interpretability for LLM pruning.

Post Graduate 2-year Program (Data Science)

🔗 [Yandex School of Data Analysis, Russia](#)

Top Russian Data Science program with 3% acceptance rate;
GPA: 8.9/10; +Assistant at Python Course.

Bachelor of Science (Applied Math and CS)

🔗 [Higher School of Economics, Russia](#)

GPA: 9.1/10; +Assistant at Algorithms and Data Structures.
Thesis on Abstractive Text Summarization Knowledge Graphs.

SUMMARY

Research Engineer with 6+ years in LLM, Evaluation, XAI and Agentic systems;

- 6+ years in LLM evaluation, agentic pipelines and model compression at Toloka AI, JetBrains and EPAM;
- Honors MSc @ Erasmus Mundus LCT (thesis: Mechanistic Interpretability for LLM pruning); Honors BSc @ HSE;
- ACL publications on LLM evaluation and multi-task learning; 15+ ML projects.

SKILLS

LLM & Training

(Evaluation) (Agents) (Data Curation) (SFT)
(LoRA/PEFT) (Pre-training) (Synth Data)

ML & NLP

(NLP) (XAI / Interpretability) (Pruning)
(Compression) (Speech) (RL)

Frameworks Tools

(HF) (PyTorch) (Docker) (git) (CI/CD) (vLLM)
(PEFT) (MLflow) (SkLearn)

Programming Languages

(Python) (Rust) (C++) (CUDA)

Languages

(Russian) (English) (Serbian) (German)

PUBLICATIONS

- 🔗 [U-MATH: A University-Level Benchmark for Evaluating Mathematical Skills in LLMs](#) [ACL-2025 workshop];
- 🔗 [Hands-On Tutorial: Labeling with LLM and Human-in-the-Loop](#) [COLING-2025 tutorial];
- 🔗 [LCT-1 at SemEval-2023 Task 10: Pre-training and Multi-task Learning for Sexism Detection and Classification](#) [ACL-2023 workshop];

ACHIEVEMENTS

- Erasmus Mundus Scholarship 2022-2024; Honours Master's and Bachelor's;
- 2x ACL accepted papers (2023, 2025);
- Improved Python course at YSDA (~500 students), Top-1 by students' rating;
- Graduated YSDA, 3% acceptance rate.
